

# NATIONWIDE REACH WORLD-CLASS SOLUTIONS

Regional connections allow us to work seamlessly for clients across the country.

With over 600 employees, EIS Holdings performs a full suite of abatement, decontamination, remediation and other environmental and specialty infrastructure services across the United States. Our combination of companies creates one of the nation's largest provider of environmental and infrastructure services in the United States, serving a wide variety of public and private end markets. Our \$10 million insurance policy, \$60 million bonding capacity, and excellent safety record ensures our clients get the highest qualified company on both small and large scale projects.

## SERVICES

### ASBESTOS, LEAD, & MOLD ABATEMENT

Our team performs abatement on facilities, schools, hospitals, bridges, government projects and railroad sites across the country. Projects have ranged from \$5,000 to over \$20 million.

We support good communications, prompt attention to paperwork and ensure that work plans are compliant with local, state, and federal regulations. EIS team members are experienced with complying with governmental agencies and regulatory bodies that include:

- EPA - Environmental Protection Agency
- OSHA - Occupational Safety & Health
- NIOSH - National Institute for Occupational Safety & Health
- AHERA - Asbestos Hazard Emergency Response Act
- NESHAP - National Emission Standards for Hazardous Air Pollutants
- Multiple State Departments of State Health Services
- Multiple State Departments of Environmental Quality

### DECONTAMINATION

EIS has commenced decontamination activities on government, commercial and industrial facilities nationwide. Our protocols are in line with CDC protocols. We also assist in providing negative pressure enclosures for temporary healthcare facilities.

### AIR DUCT AND HVAC SYSTEM CLEANING

Over the past decade, our team has emerged as a top provider of duct cleaning services. This offering allows us to deliver even more turn-key solutions to our customers. Regular maintenance and cleaning of various heating and cooling system components helps lessen the effects of airborne contaminants.

### WATER REMEDIATION

Our water remediation services include pumping, fracking, hauling, and disposal of contaminated water. We have the ability to dewater, pump, and treat contaminated materials on site.

### ADDITIONAL SERVICES

- Demolition (Structural & Interior)
- Biohazard & Chemical Decontamination
- Biological Waste Removal and Disposal
- Catastrophic Cleanup and Debris Removal
- Coal Ash Clean Up
- Dust Control
- Hazardous Materials Remediation
- Indoor Air Quality
- Industrial Services, Match Marking, Assembly & Disassembly
- Migratory Bird Deterrent Services
- Nationwide Disaster Support
- NORM and TENORM Remediation
- Hydro Blasting
- Soil Remediation

**“Their impressive safety record assisted in the contract award and was proven on our project site.”**
